REPORTING OF WORK SCHEDULE DATA ELEMENTS

A sender brought to our attention that changes were needed for reporting Number of Days Worked per Week (DN0064), Work Week Type Code (DN0204), and Work Days Scheduled Code (DN0205).

- To resolve this issue, we will be modifying some Population Restrictions effective 3/20/2025.
- These changes were posted on the eClaims change log on 9/16/2024 to allow Claim Administrators ample time to modify their coding to avoid rejections.

**MOST FREQUENT ERRORS
RETURNED OVER PAST
90 DAYS**

POPULATION RESTRICTION 0085-064A

The most common error over the past 90 days as well as the top error for 2022, 2023 and 2024 was a carryover edit from eClaims R3.0.

- The population restriction is intended to prevent a new Benefit Type Code (DN0085) from being introduced as a sweep benefit if not previously submitted as an Event Benefit or a SROI-UR(G)/SA included the Benefit Type Code. This is based on the IAIABC Claims EDI Section 4 rules.
- FTP filers should ensure that their systems are programmed accordingly to avoid further rejections.

DN	Report or MTC	Data Element Name	Population Restriction	Error Message Number	Error Message Text	Element Error Text (DN0291)	Length of G	Length of col H, 50 pos allowed
0085	ALL except UR(G)	Benefit Type Code	A) If DN0002 (Maintenance Type Code) is not UR(G), then DN0085 (Benefit Type Code) other than 2xx or 5xx cannot be sent on a sweep benefit unless previously sent on any prior SROI unless no SROI has been accepted or if there have been only SROI-SA or SROI-UR(G) accepted.	064	Invalid data relationship	Sweep BTC must have event BTC or on UR(G)/SA	25	44

POPULATION RESTRICTION 0075-064C

The second most common error returned in the past 90 days is also an eClaims R3.0 carryover to ensure that the Agreement to Compensate Code (DN0075) is sent as “With Liability” after the Board has issued a Notice that the case has been established with an ANCR/ODNCR finding in accordance with § 21-a.

- FTP filers should ensure that their systems are programmed accordingly to avoid further rejections.

DN	Report or MTC	Data Element Name	Population Restriction	Exception	Error Message Number	Error Message Text	Element Error Text (DN0291)	Length of G	Length of column H, 50 pos allowed
0075	All SROI except SA	Agreement to Compensation Code	C) SROI (exc SROI-SA) cannot list Agreement to Compensate Code – W if ANCR/DNCR has been established (excluding 25(1)(f) cases or ANCR/ODNCR finding pending appeal). Effective 3/15/2018	Effective 11/17/19, this edit will not be applied if DN0059 (Manual Classification Code) has been accepted as 7711 or 7370.	064	Invalid data relationship	Must be L since ANCR/ODNCR has been established	25	47

POPULATION RESTRICTION 0087-059

The third most common error returned in the past 90 days is another carryover edit from eClaims R3.0 and intended to force senders to only change the Net Weekly Amount (DN0087) on the appropriate Maintenance Type Code (MTC) in accordance with the IAIABC Claims EDI R3.1 standard.

- This is a Population Restriction edit on Net Weekly Amount (DN0087) that states:
- FTP filers should ensure that their systems are programmed accordingly to avoid further rejections.

DN	Report or MTC	Data Element Name	Population Restriction	Exception	Error Message Number	Error Message Text	Element Error Text (DN0291)
0087	All except AP, CA, ER, IP, PY, RB, SU	Net Weekly Amount	If MTC is not AP/CA/CB/ER/IP/PY/RB/SU then DN0087 (Net Weekly Amount) must match value previously reported for this DN0085 (Benefit Type Code)		059	Non-match data value not consistent with value previously reported	Only changed on SROI-AP/CA/ER/IP/PY/RB/SU

REMINDER

The following data elements need to be reported with the information of the *Individual Claim Representative responsible for handling the claim:*

Claim Administrator Claim Representative Name (DN0140)

Claim Administrator Claim Representative e-mail address (DN0138)

Claim Administrator Claim Representative Business Phone Number (DN0137)

REMINDER

On December 13, 2024, the Workers' Compensation Board released a new form to update claimants' information, titled Claimant Name and Address Form (Form OC-966), which will facilitate these requests and ensure the timely delivery of benefits to claimants.

Form OC-966 will be submitted directly to the insurance carrier, insurer's third-party administrator (TPA), or self-insured employer.

When receiving this form from the claimant's representative/attorney, please process the update and submit the appropriate EDI filing. These filings will overwrite any address update already processed by the Board.

REMINDER

If the claims adjuster assigned to a specific claim changes, kindly submit the relevant EDI filing to the Board with the updated adjuster's contact information.
